

Ideal for Signs 8 x 10 or Smaller

Water Resistant Light Fixture

100 LED Fixture

SPS Sign Lighting System

Lighting for Sign Illumination

Solttek Powersource's complete Sign Lighting Packages are ideal for illuminating small signs, house numbers, flag poles, and billboards. The light fixture is water-resistant and can be installed above or below a sign.

The SunLight 10 lighting controller included in this package has automatic lighting control functions. This controller will sense night fall and run your light for the desired run time. This system will light your sign for 8-10 hours in southern Canada and the northern US; from dusk until dawn in the southern US and Central America.

Designed to Offer A Complete Solution

This package is designed to offer great value and performance for sign lighting applications. We provide a complete power system that includes:

- Shell Solar Array
- 200 AHr battery bank with enclosure
- Sun Light 10 lighting controller
- High efficiency LED light
- UV resistant power cable and solar array cable
